

## Free To Live

Eternal

She saw the future dying  
And heard her baby crying  
And wondered why it had to be  
She sat and watched the sunrise  
And felt the tears of compromise  
A young girl learning to be free

Her days and nights were so cold  
She longed to share her heart and soul  
With someone willing to believe  
She saw the beauty in a strangers face  
And felt the warmth of his embrace  
A fairytale that set her free

Free  
She wants to be  
Free  
He made her feel  
Free  
She's paid the price  
Free  
She longs to be  
Free  
She's gonna be  
Free  
To live her life  
Free  
To live her life

He said he'd stay forever  
They'd make a life together  
He swore it was their destiny  
Now all alone she understands  
Between a woman and a man  
Love is a spirit flying free

Free  
She wants to be  
Free  
He made her feel  
Free  
She's paid the price  
Free  
She longs to be  
Free  
She's gonna be  
Free  
To live her life  
Free  
To live her life
