

# Grace Under Pressure

Eternal

Every time I see a child without a home of his own  
Or a woman struggling to feed her family alone  
Or an innocent man found guilty with nowhere to go, who's to blame?

Who's responsible for making sure the farmer gets his rain?  
Why is a victim fighting for each day of his life in vain?  
Can a man be guilty when his motives are insane?  
Who's to blame?

(What can we do?) I only wish that I could say  
I wish that everything bad would up and go away  
(How can we help?) I wish that I knew how  
I wish the love would rain down on me now

Grace under pressure  
That's what we need to survive  
Just to stay alive, just to stay alive  
Grace under pressure  
Just a little grace when the going gets tough, that's enough

When your mother tells you, your father didn't care  
But she never gave you reasons why he was never there  
That a wife and a child were not conducting to his plans  
Ask who's to blame?

(What can we do?) I only wish I knew  
I wish that everything that's bad would up and go away and leave  
(How can we help?) I only wish I could say  
I wish that everything that's bad would up and fly, fly away

Grace under pressure  
Fly away  
All I need's is a little pressure  
All I need's a little grace  
Grace under pressure  
When the going gets rough that's enough

I'm gonna look to the sky  
Grace under pressure  
Lift my head up high  
Under pressure  
Grace, my lord grace  
Grace under pressure  
Lift your head up to the sky  
Grace under pressure
