

You need something different  
And you don't know what it is  
You're tired of playing that same old game  
We'll look no further I'm the one to work it out  
You'll really be glad that I came

I need peace of mind  
Easy - all the time

You could say what you want to  
I'll leave the work to you  
Don't get too attached now  
You're in the world of Aquarius

I breathe independency  
Make no mistake this is the life  
No one can get close to me  
Emotions are the last thing on my mind

Making - my own pace  
I won't - play their game

Just settle down now  
They'll wait for us  
No matter how things look now  
You're in the age of Aquarius
