

# Groove Me

Etta James

Hey there sugar darling  
Let me tell you something  
Girl, I've been trying to say  
You look so sweet  
And you're so, so doggone fine  
I just can't get you out of my mind

You come a sweet taste in my mouth now  
And I want you to be my spouse  
So that we can live happily now  
In a great big old roomy house

You know you got to groove me baby  
Oh yeah  
Well you make me feel good inside  
Come on now groove me baby  
I need your groove  
Hey!

Hey there sugar darling  
Let me tell you something  
Girl, I've been trying for days  
Gimme some lovin'  
And some 20/20 huggin'  
Ooh, you cute little thang

Well girl between you and me now  
We don't need no company  
No other man, no other girl now  
Can enter into our world

Not as long as you groove me baby  
Oh yeah  
Make me feel good inside  
Come on and groove me baby  
I need your groove  
Hey!
