

It's All Right

Etta James

You told me baby
Once upon a time
If I'd been yours
Little boy you'd be mine

But that's alright
I know you love another girl
But that's alright
Well sometimes I wonder
Who's loving you tonight

You told me baby
Your love for me was strong
When I woke up this morning
All your big words had gone

But that's alright
I know you love another girl
But that's alright
Sometimes I wonder
Who's loving you tonight

When I was loving you
You just couldn't understand
You've gone and left me here
Without a man

But that's alright
I know you love another girl
But that's alright
Sometimes I wonder
Who's loving you tonight

You told me baby
Once upon a time
If I'd been yours
Litte boy you'd be mine

But that's alright
I know you love another girl
But that's alright
Sometimes I wonder
Who's loving you tonight
