

You Got Me (Where You Want Me)

Etta James

You've got me where you want me
And I hope you're satisfied
You've got me where you want me
And you hardly even tried
One single look was all I took
And then, starry-eyed
I watched my poor old heart
Go on that roller-coaster ride
I say I won't surrender
But I know darn well I will
My hopes are pretty slender
And my chances almost nil
Why should I try to alibi
Anyone can see
You've got me where you want me
And it's where I wanna be

You've got me where you want me
And I hope you're satisfied
You've got me where you want me
And you never even tried
A single look was all it took
And then, starry-eyed
I watched my poor heart
Go on that roller-coaster ride
I say I won't surrender
But I know darn well you will
My hopes are pretty slender
And my chances almost nil
Why should I try to alibi
When anyone can see
You've got me where you want me
You've got me where you want me
And it's where I wanna be
And it's where I wanna be
And it's where I wanna be
