

Laughing At Life

Etta Jones

Don't mind the rain drops
Wait until the rain stops
You find the sun laughing at life

No road is lonely
If you'll only
Smile through your tears, laughing at life

Just live for tomorrow
And be happy today
Laugh all your sorrows away

Start now and cheer up
The sky's gonna clear up
Lose all your blues laughing at life

Don't you mind the rain drops
Wait 'til the rain stops
You'll find the sun laughing at life

Ain't no road is lonely
If you'll only
Smile through your tears, laughing at life

Live for tomorrow
Be happy today
Laugh your sorrows away

Start now and cheer up
The sky's gonna clear up
Lose all your blues laughing at life
