

# Love Is Not the Enemy

Europe

Glowing on the outside  
Coming by the moonlight  
Looking at this blue thing  
Falling by the waste time

The years keep on calling  
Riding on a moonbeam  
Having on a daydream

Crash the barricades, raise the alarm  
We've forgotten how to feel  
Break the silence, shout it out  
Call the angels there's a friend in need  
Love is not the enemy  
Love is not the enemy

Looking at the bright side  
Walking in the sunshine  
Loving this blue thing  
Want it in my life

The years keep on calling  
Headed for Venus  
No sign of life

Crash the barricades, dont be afraid  
We've forgotten how to feel  
Break the silence, shout it out  
Call the angels there's a friend in need  
Love is not the enemy  
Love is not the enemy

Oh, can you feel it, does anybody care  
Oh, do you need it, say a little prayer  
Oh, can you feel it, does anybody care  
Oh, do you need it, say a little prayer

Crash the barricades, raise the alarm  
We've forgotten how to feel  
Break the silence, shout it out  
Call the angels there's a friend in need  
Love is not the enemy  
Love is not the enemy

Oh, can you feel it, does anybody care  
Oh, do you need it, say a little prayer  
Oh, can you feel it, does anybody care  
Oh, do you need it, say a little prayer
