

## New Love in Town

Europe

Nothing looks quite the same  
I see people and places in a new light again  
There's a grace ascending to a broken sky  
Now I know there's a reason why  
I feel so alive

'Cause tonight  
There's a new love in town  
Waking emotions I thought I'd never find  
Yes, tonight  
How you turned it around  
I wanna tell the whole world  
There's a new love in town

It's been a strange kind of low  
Always held my head up high  
Little did I know  
That my rose-tinted reality  
Would soon fall apart  
Just by holding you gently  
There's a hope in my heart  
I'm out of the dark

So tonight  
There's a new love in town  
Waking emotions I thought I'd never find  
Yes, tonight  
How you turned it around  
I wanna tell the whole world  
There's a new love in town

And everyone I've met has made me what I am today  
And every choice I've made has led me here today  
And every time I see your face  
I've found my way

Oh yes, tonight  
There's a new love in town  
It's waking emotions  
Lord, I never thought I'd find  
Yes, tonight  
How you turned it around  
I wanna tell the whole world  
There's a new love in town  
There's a new love in town
