

## Riches to Rags

Europe

This is the sound  
Of us falling apart  
This is the sound  
Never getting back to the start

I guess we're going down  
These are the days  
For better or worse  
We gotta seal our fate  
We're breaking out  
It's a world gone mad  
But I have never felt so alive  
We've gone from riches to rags

This is the sound  
Of us digging our graves  
Yeah, this is the sound  
Of us burnt at the stake

I guess we're going down  
These are the days  
For better or worse  
We gotta seal our fate  
We're breaking out  
It's a world gone mad  
But I have never felt so alive  
We've gone from riches to rags
