

## Settle for Love

Europe

Don't misunderstand me I was just a little kid  
Thinking that the street life was the only way to live  
Always holding out for another thrill

We've come a long long way  
So tell me why can't we settle for love?  
Is it that hard at the end of the day?  
Tell me why can't we settle for love before it's too late?

Whatever it is you think you're missing  
Time to let your heart go  
'Cause when you've walked this kind of distance  
We can't fool each other anymore

Maybe there is a light that won't go out

We've come a long long way  
So tell me why can't we settle for love?  
Is it that hard at the end of the day?  
Tell me why can't we settle for love before it's too late?  
Before it's too late

We've come a long long way  
So tell me why can't we settle for love?  
Is it that hard at the end of the day?  
Tell me why can't we settle for love before it's too late?

Before it's too late  
Before it's too late
