Beautiful Child

Eurythmics

Something that I said Made you wear a frown The way you hang your head Has made the tears come down

But don't you wear a sigh My beautiful child

You know it doesn't burn When you touch the sun So don't be concerned My golden one You're gonna reach the sky Fly ... beautiful child

There is no other place The human race Is running out of space There is no better love And human love Is what it takes

And I'll be at your side When you're falling down You'll be feeling fine When you hit the ground So don't slip away Stay ... Beautiful child
