Nothing And Everything

Evan and Jaron

Guess who came by And asked about you last night Asked if you were seeing someone else It's no big thing So how have you been doing I'm kind of seeing someone new myself Are you listening close enough to hear Somewhere it changed I'm falling back in Now it's me who's calling you again I hear myself go on and on Hoping I'll accidentally make sense Don't ask me now What's on my mind Maybe I just called to say hi But I guess you can see There are two things that I need Nothing and everything Do you still have Those shoes I used to laugh at Remember that night they turned your feet red Is it too much To tell you that I think of The sound of those shoes falling by my bed If you could read my mind You'd see it clear Hey I didn't mean To take up your time I know this sounds like a riddle I'm hiding behind But there's nothing I want more Than to have everything Like it used to be
