

# Imperfection

Evanesence

The more you try to fight it  
The more you try to hide it  
The more infected, rejected, you feel alone inside it  
You know you can't deny it  
The world's a little more fucked up everyday

I'm gonna save you from it  
Together we'll outrun it  
Just don't get into the fear  
So many things I would've told you  
If I knew that I was never gonna see you again

I wanna lift you up into the light that you deserve  
I wanna take your pain into myself so you won't hurt

Don't you dare surrender  
Don't leave me here without you  
Cause I would never  
Replace your perfect imperfection

The way you look us over  
Your counterfeit composure  
Pushing again and again and sinking lower and lower  
The world is on its shoulders  
Do you really know the weight of the words you say?

You want a little of it  
You just can't let go of it  
You've got an ego to feed  
Too late to rise above it  
Don't look now but the little girl's got a grenade

I'm gonna lift you up into the light you deserve  
I'm gonna take you down to the real world so you can watch it burn

Don't you dare surrender  
Don't leave me here without you  
Cause I would never  
Replace your perfect imperfection

We stand undefined  
Can't be drawn with a straight line  
This will not be our ending  
We are alive, we are alive

Don't you dare surrender  
Don't leave me here without you  
Cause I would never  
Replace your perfect imperfection

Don't you dare surrender  
I'm still right beside you  
And I would never  
Replace your perfect imperfection
