

Metaphor for a missing moment
pull me into your perfect circle
One womb, one shape, one resolve liberate this will and release
us all

Gotta cut away, clear away, slip away
And sever this umbilical residue that's keeping me from killing
you
And from pulling you down with me, here I can almost hear you s
cream

Give me one more medicated peaceful moment
one more medicated peaceful moment
Because I don't want to feel this overwhelming hostility
because I don't want to feel this overwhelming hostility

Gotta cut away, clear away, slip away
And sever this umbilical residue
Gotta cut away, clear away, slip away
And sever this umbilical residue that's keeping me from killing
you
keeping me from killing you (2x)
