

## Surrender

## Evanesence

Is this real enough for you  
You were so confused  
Now that you've decided to stay  
We'll remain together

You can't abandon me  
You belong to me

Breathe in and take my life in you  
No longer myself only you  
There's no escaping me, my love  
Surrender

Darling, there's no sense in running  
You know I will find you  
Everything is perfect now  
We can live forever

You can't abandon me  
You belong me

Breathe in and take my life in you... (2x)
