

# Crawl Inside

Evans Blue

We fight for the hell of it  
And we bleed to feel alive  
We love to get the hate from it  
And we feed troubled minds

We will divide  
We will remind you  
We will survive  
We live inside you

We crawl inside  
We fade away  
We blame  
We hate  
We live inside you  
We paralyze  
We take away  
We hate  
We break  
We criticize you

We captivate the furious  
Deception, Our demise  
We decorate the fear in us  
With power to fuel the fires
