

Crawl Inside

Evans Blue

We fight for the hell of it
And we bleed to feel alive
We love to get the hate from it
And we feed troubled minds

We will divide
We will remind you
We will survive
We live inside you

We crawl inside
We fade away
We blame
We hate
We live inside you
We paralyze
We take away
We hate
We break
We criticize you

We captivate the furious
Deception, Our demise
We decorate the fear in us
With power to fuel the fires
