

## Bring the Night On

EVE 6

OK I'm boring you I'm warning you tonight,  
Is not the night for fights, lies white or otherwise  
My mood isn't better yet Sober and humorless,  
if you can't handle this, roll off the mattress  
I'm trying to let you know that your not just another  
When you're under the covers I'm under your thumb  
And your the finest of specimens  
Leaving me breathless  
Reeling and restless, putting me to the test  
Turn the light off Leave me where I lay  
Bring the night on  
Not another day  
OK I'm lying when I'm telling you you're right  
but you don't like the truth served straight or otherwise,  
I'm an insomniac  
Tossing and turning and,  
getting repetitive swallow a sedative
