

# Make It Out This Town

Eve

When I close my eyes  
I can see me fly in the hope  
High above the clouds  
Swear I won't look back if I get chance  
Oh - I won't come back around

Yo, have you ever laid in bed and it's late in the night  
Staring at the ceiling talking to God about life?  
Asking when it's gonna happen, just maybe it might  
Made a lot of life turns, some wrong and some right  
Wanna know when it's your second, your minute, your time  
Sick of dreaming, wanna lay the pictures in your mind  
Never been like all the others, you're one of a kind  
I know you're feeling like you wanna break free, it's a sign  
Just wanna fly above it all, see where you can land  
Know that you can do it on your own cause you can  
Know that you can conquer all with a plan  
Forget about the negatives buried in the sand  
Yeah, never forget this is your life  
Your path, your dream, this is your fight  
Victory you'll see, you'll be alright  
Get through the darkness, on the other end is pure light

When I close my eyes  
I can see me fly in the hope  
High above the clouds  
Swear I won't look back  
If I get chance  
I will come back around  
If I make it out this time, yeah  
I gotta make it out this time, yeah  
I'm gonna make it out this time, yeah  
I'm gonna roll the dice  
And take a risk tonight  
Gotta make it out this time

Have you ever felt alone like the whole world was missing?  
And when you prayed it seemed like no one was listening  
You try to keep the faith and keep on living  
But when you struggling the future looks distant  
All your hope seem to be just pipe dreams  
And you really gotta wonder what your life means  
That's when you gotta pick yourself up out the dust  
Make a change and find a place in your heart you trust  
You ain't always gotta take the first card your dealt  
In this life only you can represent yourself  
Never let your circumstances hold you back  
You were born free, never gotta feel trapped  
And on the pursuit to happiness you're gonna feel pain  
But the only way to win is to stay in the game  
The naysayers they're gonna try and embarrass ya  
But I've learned that the struggle builds character

Put your hands in the air now  
If you feel it let me hear you loud  
Put your hands in the air now  
Yeah, ain't nobody gonna hold you down

Yeah, come on, come on
