## **Misery Whip**

## **Everclear**

Walking wounded with a belly full of pain And a big bad attitude

We are shaking shadows for that perfect dark room Where we can do just what we want to do

There is a place...

Where we can leave behind All those simple minds They would not like the way we live

When we are all alone
In this house that we call home
You will become my
misery whip

(yes...I said like a misery whip)

Walking hungry with a pocket full of promise And a big black song in my head

I know the answers to my questions They are purple black and blue And they are waiting for me in my bed

There is a place...

Where we can leave behind All those simple minds They would not like they way we live

When we are all alone
In this house that we call home
You will become my
misery whip
(I will say it again...
like a misery whip)

Stop!

I get no pleasure
When I'm going through
the motions
Of my mediocre day to day
I'm just an actor
Just like
Robert fucking Redford
When I say those stupid words

That they expect me to say

Yes we can leave behind All those simple minds They would not like the dirty things we do

Yeah

When we are all alone
In this house that we
call home...
I will fall down like a bitch
for you

I need you to hit me and
make me
Shake
I need you to hurt me and
make me
Beg for more
I need you to bend me and
make me
Break
I need you to make me feel like
I am your whore

I feel complete when I feel sick inside

I need to feel like I am real inside

I need to feel like I am really alive

I need you to make me feel

I need you to hit me and make me
Shake
I need you to hurt me and make me
Beg for more
I need you to bend me and make me
Break
I need you to make me feel

Like we can leave behind All those simple minds They would not like the way we live

When we are all alone
In this house that we call home
You will become my
misery whip

You will become my misery whip
