

Now That It's Over

Everclear

Yeah right!

One, two, three, four

Break down, shake for me
Nothing ever is the way you want it to be
Nothing even tastes right now that it's over

Break down, shake for me
Don't write words unless you want me to read them
Nothing really matters now that it's over

Maybe we can be friends
Now that we're older
We can have fun like we did in the early days
Now that it's over

Yeah right!

Break down, shake for me
Nothing ever seems the way it ought to be
Nothing ever seems right now that it's over

Yeah, now maybe we can be friends
Maybe we can be closer
We can have fun like we did in the old days
Now that it's over

Oh yeah...

My bad dreams just don't seem the same
Baby without you
I wish you were willing to accept the blame
Yeah, for everything you do

My nightmares just don't scare me now
Baby without you, yeah yeah
I wish that I could find the words to tell
In the best way possible, you and your friends to go to hell

Yeah right!

Whoa, breakup time is never easy to do
Nothing ever ends the way you want it to
Nothing seems to make sense now that it's over

Yeah, now maybe we can be friends
Yeah, now that you're leaving
You can be nice to me
Maybe I'm dreaming
I am a lot better now than just okay
Maybe I am just wakin' up in my own way
Now that it's over
Now that it's over

My bad dreams just don't seem the same
Baby without you

I wish you were willing to accept the blame
Yeah, for all the shitty things you do

Nightmares just don't scare me now
Baby without you
I wish that I could find the words to tell
You to politely go fuck yourself
Yeah, now that it's over...
