

Shine

Everclear

Shine
Open up your life and shine your light
Shine
Open up and show the freak inside

Words don't mean nothing
His words don't mean nothing

He has no shame
He will say anything
Just to get what he needs

He says he needs
The right girl
To heal his hurt
And change his world

He will say anything
To make her think
He is the man
She wants him to be

Shine
Open up your life and shine your light
Shine
Open up and show the freak inside

The girl had a good plan
To find herself a good man
The kind of guy that you hear about
But you never seem to meet

She hides
Behind those bright eyes
Fake smiles and sex
And white lies

Yeah
She is
Trying too hard
To be the way
That she thinks
She's supposed to be

Come on

Shine
Shine
Shine

Let me see you
Shine
Shine
Shine

I want to see you
Shine

Shine
Shine

Come on
Let me see you
Open up and shine your light
Open up and show the world
The freak inside

You are afraid to shine
To see what's deep inside
Go find your freak and let it drive

You are afraid to shine
To see what's deep inside
Go find your freak and let it glide

You sing the same old song
Been in the dark too long
There is so much more than meets the eye

Don't be afraid to shine
Go find out who you are inside
Just go and find your freak and let it fly

Let me see you

Shine
Shine
Let me see you

Shine
Shine
I want to see you

Shine
Shine
Come on let me see you

Shine
Shine
Shine
Come on

Shine

Let me see you
Open up and shine your light

Open up and show the world
The freak inside
