

# Hopelessly Hopeless

Evergreen Terrace

Stay away - from all the mistakes you've ever made  
They'll come back to haunt you  
We decay - only our conscience can show the way  
Just don't force the issue

The hopelessly hopeless marching  
Away to a watery grave  
You sucked out the feeling

I can't believe that you pulled me under  
Capsized in seas that I never understood  
Are we all we are?

It's underway - a means to an ending that's all too  
vague  
With nothing to cling to  
As we face - with words falling freely the scars remain  
Don't let them deceive you

The hopelessly hopeless marching  
Away to a watery grave  
You sucked out the feeling

I can't believe that you pulled me under  
Capsized in seas that I never understood  
Are we all we are?

The hopelessly hopeless marching  
Away to a watery grave

Take it all, take it all back from me  
Take it all, take it all til' there's nothing  
Take it all, take it all back from me  
Take it all, take it all til' there's nothing left to  
give

(So wrap your arms around me and whisper exactly what I  
want to hear  
Dismantled piece by piece, word by word, promise after  
promise, until there's nothing left to give)

I can't believe that you pulled me under  
Capsized in seas that I never understood  
Are we all we are?
