

Black Undertow

Evergrey

Only breathe in the darkness
Feels like a black undertow
Only breathe in the darkness
Let what is left just unfold

Freedom unfold
Feels like black undertow
Free
Unfold like a black undertow

The morning mist chase the night away
But inside this heart it never strays, it stays
And how solitude understands me, it could never change
I know the swings, how he stumbles, how he sways

Freedom at last
Feels like a black undertow
Free
On hold
Like a black undertow

We're still in this together
Still in this together
Still in this together...

Freedom on hold
Feels like a black undertow
Free
Unfold like a black undertow
