End of Your Days

I've tried it all It's gone too far And worst of all Is the promise that I can't keep I have emptied every source I have learned all there is to know To stand by as you wither To watch your spirit drain I just wish, hope could last forever Last forever So here we are The end of your days So here we are So here we are I have lost, I have failed My promise not kept and I'm sorry I have emptied every source I have learned all there is to know So here we are Holding hands at the end of days Your eyes slowly shut Your hand let's go And I kiss you farewell, farewell So here we are So here we are The end of your days So here we are So here we are I have lost, I have failed My promise not kept and I'm sorry The end of your days So here we are I promised hope forever but I'm sorry The end of your days And I'm sorry The end of your days
