

## Missing You

Evergrey

I missed you since forever  
I longed for you when I was hurt  
Longed so long I can't remember  
Were there ever days of heaven?

Replace this pain with something new  
Magic thoughts of white turned blue  
I'm clinging to what seems a tale  
Searching for the Holy Grail

And I've been missing you forever  
And I've been missing you forever

Grand brushes of white and blue  
Where one is Me  
And one is You  
Hopes of highs soon joined by lows  
And thoughts of why last sung by bows  
The fire arrows that lands in snow  
Wake up hollow

Replace this pain with something new  
Magic thoughts of white turned blue  
I'm clinging to what seems a tale  
Searching for the Holy Grail

And I've been missing you forever  
And I've been missing you forever
