

# Gone for Good

Everlast

I got a dopefiend lean, I got a cocaine pain  
I got a Vicodin itch and I got shit for brains  
Got a hard luck woman, got a few good friends  
Got a couple nice hustles that'll get you some ends  
Got an old man's soul, got a heart of gold  
Got a brand new shovel dig me out of this hole  
Got a whole lot of nothin, I'm ready to give  
I need a whole lot of lovin girl I'm eager to live  
It go one for the money, two for the show  
I got a one trick pony you can ride her slow  
Cause she's good to go, and when I'm gone for good  
I'll be unappreciated and misunderstood  
Got a brand new bag, got a brand new style  
Got a brand new baby girl that makes me smile  
Got a pocket full of money, got a payday swagger  
Got a .45 pistol, and a switchblader dagger

And I'm, holdin on, with all I got  
I see the world keep turnin, fires keep burnin down  
We're all, holdin on with all we got  
Tryin to poison all the water, make porno stars of your daughters in town  
Better wake up, you oughta stop messin around  
Quit pretendin like the motherfuckin walls ain't crumblin down

I got a one track mind, got a double standard  
I got a woman so fine and that's the way that I planned it  
Got a part time job, got a full time hobby  
I get drunk at the bar and fall asleep in the lobby  
If I'm late for the show, you don't have to worry  
I just live for today so I ain't in no hurry  
My vision is blurry, my head has been throbbin  
I got to fightin with the wife and she hung up on me sobbin  
Got a hole in my heart, got the guiltiest feeling  
I got a bottle of the Jameson that's how I keep dealing  
Got a pill for the pain, got some trees for the blowin  
Got twenty-five thousand mo' miles to be goin  
I got, no way of knowin, got no way of tellin  
Ain't nobody on my side and I got nuttin I'm sellin  
Got the clothes on my back, got the songs that I'm singin  
Got the love in my heart, got the drama I'm bringin

And I'm, holdin on, with all I got  
I see the world keep turnin, fires keep burnin down  
We're all, holdin on with all we got  
Tryin to poison all the water, make porno stars of your daughters in town  
Better wake up, you oughta stop messin around  
Quit pretendin like the motherfuckin walls ain't crumblin down
