

# Mercy On My Soul

Everlast

A trust betrayed, a rusty blade  
Standin' on the air, I walked the line  
Paid my fine, hope I know the land  
The actual facts, unnatural acts  
Sins that take their toll  
The Angel and the jinn and the beast within  
They fight to take control

Lord, have mercy on my soul  
On my soul, on my soul, on my soul

Lord needs you like a junkie needs his drug  
He needs you like a baby boy needs his hug  
Needs you like the power, Lord, needs the sun  
I need you like DMC needs Run  
Lord, have mercy on my soul, Lord, have mercy on my soul  
Lord loves you like the Eskimo loves the cold  
I love you like the miner man loves his gold  
Love you like the fishermen loves the sea  
I love you like the flowers love the work of bees

Lord, have mercy on my soul  
On my soul, on my soul, on my soul

Lord, have mercy on my soul  
Standin' up tall, on top of the wall  
Hopin' that I can fly, Angel and the jinn and the beast within  
Say I'm gonna die

Lord, have mercy on my soul  
On my soul, on my soul, on my soul
