

# My Medicine

Everlast

Jack be nimble, Jack be quick  
Jacked up the spoon on the candlestick  
Dopestick pimping on the one-trick pony  
Yet she's kind of skinny, but she gets my money  
Get my money, buy my medicine  
Buy my medicine, buy my medicine!  
Get my money, buy my medicine  
Buy my medicine, buy my medicine!

Jack starts hanging around with some fiends  
Got strung out, sold the cow for beans  
Told young wifey: "I love you honey  
But you gotta hit the streets, go and get my money"  
Get my money, buy my medicine  
Buy my medicine, buy my medicine!  
Get my money, buy my medicine  
Buy my medicine, buy my medicine!

Girl, my love is gonna last, just as long as my high  
You can trust every word I'm gonna tell you is a lie

Jack starts track up and down the hill  
Got to walk for ace but he told him to chill  
Rain comes shine, comes snow then sunny  
Get the fuck out, go and get my money  
Get my money, buy my medicine  
Buy my medicine, buy my medicine!  
Get my money, buy my medicine  
Buy my medicine, buy my medicine!

Girl, my love's gonna last, just as long as my high  
You can trust every word I'm gonna say will be a lie  
Girl my love's gonna last, just as long as my high  
You can trust every word I'm gonna tell you is a lie  
Girl, I love you!  
I can't see you, ha ha ha ha!
