

Welcome to my day
Just another day losing my mind
It's always something else
Every little thing, all the little things
Keeping my heart from losing itself

I don't know what to thing
I don't know what to say
No one said that life was fair

I feel crazy lately
Everybody tells me nothing I do is right
I feel crazy lately
I believe it's making me feel so alive

If I'm feeling off
Just I little off
It's better than on if on is feeling numb
Cause every part of life
Every little part
Can show me the joy in not having enough

No matter what I say
I will be okay
We're all a little bit insane

I feel crazy lately
Everybody tells me nothing I do is right
I feel crazy lately
I believe it's making me feel so alive

Look around, slow it down
I need to live in this moment
Slow it down, look around
See what it means to be alive
Alive

I feel crazy lately
Everybody tells me nothing I do is right (nothing I do is right)
I feel crazy lately
I believe it's making me feel so alive (so alive)
I feel crazy lately
Everybody hates me nothing I do is right
I feel crazy lately
I believe it's making me feel so alive
