

## Even When

Everlife

Who's that girl staring back at me  
A hazy view is all I see  
You see its a lie that keeps me down  
I'm cryin'  
I'm cryin' out loud

Even when  
I cannot feel you You hear  
I need you  
Like a flame needs the air  
Even When  
I cannot see Your face I need you  
You know my fear, can I leave my burden here?  
(na na na na na... I need you,  
na na na na na, I need you)

Thoughts run through my mind  
Let's leave this life  
Life behind  
Yeah  
My goal is set on perfection  
My body needs correction  
Whys the truth so hard to find

Yeah--  
You got to reach the unreachable  
Nearly impossible  
Yeah--  
You got to reach the unreachable  
Nearly impossible
