

## Where You Are

Everlife

It's hard to find love that's not complicated  
It's hard to see life when we all seem so jaded  
I don't know, you don't know  
Why can't I find a way to show you now

It's hard for me to smile when I get so frustrated  
The walls to your heart they're locked and they're gated  
I don't know, you don't know I wanna find a place to go  
Where you are

I've been up  
I've been down  
You know my smile  
You know my frown  
I just love when you're around  
I wanna be Where you are  
Where you are

I'm walking around and I don't hear a sound  
Except for the memory of a love that I've found  
I wanna see what you see, do you know what we could be

Even in the dark, I'll take your hand  
And see down this road that ends where you stand  
I will know, you will know  
You've given me a place to go where you are

I'll give you my thoughts that I've held for so long  
Scared to let go, what if I'm wrong  
As I sit here tonight I don't care if I'm right  
I just wanna be where you are
