

## Everyone (Moving On)

Evermore

I believe what you say  
I believe what you do  
I believe what you do is for the good of everyone

I didn't think I could change  
I thought I'd always stay the same  
I' wide awake on the train back to you  
The only one

It's the same everyday now, moving on  
And though I don't know the way now, I walk on

I've found a new way to feel  
I've got an old wound to heal  
Now I wake on the ground  
And hear the sound of everyone

Somebody please, won't you show me the way?

And though I don't know the way now, I walk on  
It's the same everyday no

Moving on...
