

Shines On Everyone

Evermore

The same sun shines on everyone
The same sun shines on everyone
If I stumble or fall, it's good to know we share it all
The same sun shines on everyone
The same sun shines on everyone
If I stumble or fall, it's good to know we share it all

Singing yeah
We've come undone
Yeah there's water in my lungs
Yea we've come undone
This heart it weighs a ton

The same sun shines on everyone
The same sun shines on everyone
If I stumble or fall, it's good to know we share it all

Singing yeah
We've come undone
Yeah there's water in my lungs
Yea we've come undone
This heart it weighs a ton

Singing yeah
We've come undone
Yeah there's water in my lungs
Yea we've come undone
This heart it weighs a ton

The same sun, on everyone
The same sun, on everyone
The same sun, on everyone
