

## Tie Me Down

Every Avenue

Looking around for more excuses,  
Spinning my head around again  
I'm getting use to feeling useless,  
Pacing the cage to keep me in

I'll be here in pieces,  
When you finally pull the pin,  
And blow me away again

Tie me down and fuck me up tonight,  
Rip my heart out  
Hurt me good before you say goodbye,  
Lets do this right now  
Lead me on to get you off,  
And watch me come undone  
Tie me down and fuck me up baby,  
Rip my heart out

You told me "boy don't get addicted,  
I'm like a drug that's hard to find"  
You hit a vein and I can't kick it,  
I wanna be on you all the time

I'll be here in pieces,  
When you finally pull the pin,  
And blow me away again

Tie me down and fuck me up tonight,  
Rip my heart out  
Hurt me good before you say goodbye,  
Lets do this right now  
Lead me on to get you off,  
And watch me come undone  
Tie me down and fuck me up baby,  
Rip My heart out, out

Keep on going down,  
You hold me there and then,  
You just spit me out  
Why do I do this to myself?

Tie me down and fuck me up baby,  
Rip my heart out  
Hurt me good before you say goodbye,  
Lets do this right now  
Lead me on to get you off,  
And watch me come undone  
Tie me down and fuck me up baby,  
Rip my heart out
