

The Great Secret

Every Time I Die

Blow your fucking brains out
Blow your fucking brains out
Tune that pale flame out,
Extinguish the glow forever and in will come the sun.

Blind your eyes, you are loved.
Trust in her aim, you are loved.
Now dance to the grave, you are loved.
No one will ever know who they are,

So blow your fucking brains out
Blow your fucking brains out
Tune that pale flame out,
Crack the egg wide open and out and out will pour enough
Once you stop believing in yourself.

Silence your voice

So raise your antenna towards the sky,
Put blood in the well if it dries.
What is now instead of what is next,
Our reflections only draw us to our death.

Tell yourself nothing.
Tell yourself nothing.
Tell yourself nothing.
Let the word come.
Let the word come.
Let the word come.

All eyes off, all eyes off, drift without a sight.
All eyes off, all eyes off, drift without a sight.

Blow your fucking brains out
Blow your fucking brains out
