

The One

Everyday Sunday

I am here, and I'm with You now
And didn't think I could feel this way
I am here, and I'm with You now
Because You found me somehow
CHORUS
I can be the one tonight
When everything seems out of sight
I will follow You with all my life
I can be the one tonight
Jesus, You are the one that makes me smile
Over and over again
I am here and I'm with You now
I want to hear You somehow
CHORUS
