

Better Things

Everything But the Girl

Don't drag me down just because you're down
Just 'cause you're blue don't make me too
And though you've found, you need more than me
Don't talk to me about being free

That's freedom without love
Magic without love
Magic without love

Hear me say, "Better things will surely come my way"
Hear me say, "Better things will surely come my way"

You say the magic's gone, well, I'm not a magician
You say the spark's gone, well, get an electrician
And save your lying about needing to be free
Oh, that's bullshit, baby, just want rid of me

Your freedom without love
Magic without love
Magic without love, hey

Hear me say, "Better things will surely come my way"
Hear me say, "Better things will surely come my way"
