

## Don't Leave Me Behind

Everything But the Girl

You will be a star  
And i will be so jealous when you are,  
But you'll always be a fool  
So i will catch you when the world is cruel

And though dizzy heights are on your mind  
Oh honey please don't leave me behind

You think it's so easy  
But listen, oh they once said the same to me  
And you'll be loved for sure  
But i think i will always deserve it more

And when you fall i think you'll find  
That you never really left me behind  
Don't leave me behind

While you're down here i will be kind  
Tell everyone that to my mind  
You should be being wined and dined  
So don't forget me and don't leave me behind
