

## Sugar Finney

## Everything But the Girl

Married in black, divorced in white  
Though daddy tried to teach her wrong from right  
It's hard to resist on a wintry night  
When you're out of mind, when you're out of sight  
This you shouldn't, this you should  
Oh, but sugar finney never could be good  
Never could be good

I've grown a little weary of this old town  
A conscience sure can bring you down  
I'd like to hang around Chicago bars  
With murderers and movie stars  
And Presidents who'd rather be  
Alone with would be sinners like me

America is free, cheap and easy  
America is free, cheap and easy

They say sugar finney went off her head  
Lay once a month in a blood stained bed  
But me, I'm careful where I tread  
No handsome boy will ever leave me dead  
For beauty is no guarantee  
I'll take the looks and the rest you can keep

America is free, cheap and easy  
America is free, cheap and easy

For beauty is no guarantee  
I'll take the looks and the rest you can keep  
The rest you can keep  
And I hope it makes you happy  
Sugar finney

America is free, cheap and easy  
America is free, cheap and easy

Children pray for me  
Such is the price of infamy  
Tell them I was never happy  
Goodbye Bobby Kennedy  
In the White House still asleep  
Goodnight Jackie Kennedy

America is free, cheap and easy  
America is free, cheap and easy
