

The Road

Everything But the Girl

You packed your books last night
You break with the past tonight
I hope you find some beach house on the coast
Out there with plenty of light

'Cause I know the road is very long
But in my head I'll always hold your song
And I'll keep a good thought for you
And I'll keep a good thought for you

You left us 'The Best of Frank'
And on the back you signed your name
'One For My Baby'
Was underlined again

Now I know the road is very long
But in my head I'll always hold your song
And I'll keep a good thought for you
(If you're lonely think of me)
And I'll keep a good thought for you
(If you're lonely think of me)

There's a couple you knew quite well
They moved away last spring
And though he can't find suits
They don't miss much of anything

They're raising a baby now
At least that's one gift that this world allows
And I'll keep a good thought for you
And I'll keep a good thought for you

'Cause I know the road is very long
But in my head I'll always hold your song
And I'll keep a good thought for you
(If you're lonely think of me)
And I'll keep a good thought for you
(If you're lonely think of me)
And I'll keep a good thought for you
