

It's Up To You

Evil Conduct

Every day you read the morning paper
Every night you watch the TV news
Do you think you're getting the whole picture?
Do you think they're telling you the truth?

I think it is mass manipulation
Wake up, I say, before it is too late
With common sense and some imagination
It's clear it's all dictated by the state

[Chorus:]

It's up to you to find the answers
Up to you to find the truth

You just seem to take it all for granted
Incapable of thinking for yourself
Do you think we've been indoctrinated?
Come on, wake up before the clock strikes 12
