

One For All

Evil Conduct

Fight to free a foreign land
For some reason, that no one understands
Caught up in a civil war
Do you know what it is you're fighting for?

One for all and all for one
Don't forget to bring your guns
All for one and one for all
Stand together, take 'em all

Bringing freedom to this land
Nice and peaceful, with a machinegun in your hand
Impose your justice and liberty
They resist, they don't want it, can't you see

All your buddies, they are dead
They're no victims, they are heroes, someone said
They joined the army, joined the brave
Got their medals while they're rotting in their graves
