

Your Identity

Evil Conduct

Don't let anybody tell what to do
Coz they don't have a clue
Don't let anybody tell you what you think
Your mind belongs to you

Don't let anybody tell you how to look
Don't wanna be like them
You've got a brain and it's working quite alright
You don't give a damn

[Chorus:]

It's all about your choices in life
It's all about decisions that you take
It's all about your choices in life
Those are the things that give you your identity

You got covered in tattoos in 10 years time
You stand out of the crowd
All these questions 'bout regretting what you did
You can do without
