Strawberry Cake

Ewelina Lisowska

It took some time to find you
I never thought I'd be loved by someone like you
You filled my space with roses and cakes
I lived in a dream, I hoped that I would never awake again
But I couldn't make you stay

Please, don't let me go
I cannot live without you no more
Take my breath away before
I lose the only one I love

Please, don't let me go
I cannot live without you no more
Take my breath away before
I lose the only one I love

I never thought I'd find you
Loving you was like strawberry cake filled with loving too
I ate the whole cake, so sweet but it left a bitter taste
Then I awake, and see the ruins left scattered all around the plate
And I knew you couldn't stay

Please, don't let me go
I cannot live without you no more
Take my breath away before
I lose the only one I love

Please, don't let me go
I cannot live without you no more
Take my breath away before
I lose the only one I love

Baby, baby, baby
You cannot leave me now
Give me the sweetest candy and mend my broken heart

Baby, baby, baby
You cannot leave me now
Give me the sweetest candy and mend my broken heart

Hold me, hold me baby
Call me, call me crazy
Cause I'm crazy in love
I'm crazy in love
I'm crazy in love
I'm crazy

Please, don't let me go
Cause I'm crazy
I'm crazy
Take my breath away before
Because I'm crazy
Cause I'm crazy in love
