

Can't Face the World Alone

Example

I was knocking on the wrong damn doors for ages
On the nighshift looking for a brighter day
Every single sweethearts face had faded
They'd decided there was not much left to say

I was gultiy for sure
Lost in the war
Can't face the world alone
You wash up ashore
Wasn't lost anymore
Can't face the world alone

The world alone
The world alone
The world alone
Can't face the world alone

All the things they promise me sound amazing
Grass is always meaner on the other side
Living like a lost soul did my brain in
You found me and I had no place to hide

I was gultiy for sure
Lost in the war
Can't face the world alone
You wash up ashore
Wasn't lost anymore
Can't face the world alone

Don't live your life a maybe
Ther's somebody out there wating now
Who'll break it down
And build you up again
No ifs or maybes
Don't let em call you crazy
Aim for a blue sky gazing
We settle down
Can't face the world alone

The world alone
The world alone
The world alone
Can't face the world alone

Don't live your life a maybe
Ther's somebody out there wating now
Who'll break it down
And build you up again
No ifs or maybes
Don't let em call you crazy
Aim for a blue sky gazing
We settle down
Can't face the world alone

The world alone
The world alone
The world alone

Can't face the world alone
