

Crying Out for Help

Example

I'm starring at your pillow and I'm wide awake
I never even listened to you why'd you stay
I'm always on a mission and it slides away
I think I just unbalanced the seesaw

Crying out for help just happy I'm living
Crying out for help decisions, decisions
Crying out for help
And no one ever listens to me

I'm a victim run off the richter scale
I invented to make myself feel better
About waving my crown
Laying me down when I'm down when I'm down

I'm a victim run off the richter scale
I invented to make myself feel better
About waving my crown
Laying me down when I'm down when I'm down

I tried to make you smile in a lousy way
I find it hard to see you like a cloudy day
No fucking excuses for the way I behave
I never seem to finish the jigsaw

I'm crying out for help just happy I'm living
I'm crying out for help decisions, decisions
I'm crying out for help
And no one ever listens to me

I'm a victim run off the richter scale
I invented to make myself feel better
About waving my crown
Laying me down when I'm down when I'm down

I'm a victim run off the richter scale
I invented to make myself feel better
About waving my crown
Laying me down when I'm down when I'm down
When I'm down

Woo him back was heading down the same road
Something's changed though
Everybody whispers something they know
I've been crying over the rainbow
And my cheese got the same glow
And my voice got my same tone
Bind to define happiness
Happy not, happiness
Back to the same old same old same old
And I lust success, but identify success in love
Obsess in luxuries and her tend to touch
I just surrender to drugs
I'm just a half empty mug
And no one ever listens to me

I'm a victim run off the richter scale

I invented to make myself feel better
About waving my crown
Lying me down when I'm down when I'm down

I'm a victim run off the richter scale
I invented to make myself feel better
About waving my crown
Lying me down when I'm down when I'm down
When I'm down
