

# Live Life Living

## Example

I have always figured the answer was hiding  
I have always pictured a perfect horizon  
Now, I have somehow figured it out, simply now I'm around you  
I will, never, picture myself getting older without you

Now I've found you,  
I'm allowed to paint a picture,  
I'm with you, surround you  
Whatever it all comes down to,  
I don't wanna live life living without you

I don't wanna live life living without you

Now I've found you  
I'm allowed to paint a picture  
I'm with you, surround you  
Whatever it all comes down to  
I don't wanna live life living without you

I have always pictured a future so lonely  
Cos I have always lived in a world that disowned me  
Now I will never picture myself being down when i'm 'round you  
I just always pictured myself feeling younger around you

Now I've found you  
I'm allowed to paint a picture  
I'm with you, surround you  
Whatever it all comes down to  
I don't wanna live life living without you

I don't wanna live life living without you

Now I've found you  
I'm allowed to paint a picture  
I'm with you, surround you  
Whatever it all comes down to  
I don't wanna live life living without you

You can never know what will come your way  
You can never tell when it's your last day  
But you will always know forever and ever  
Live life living without you

Without you ...

Now I've found you  
I'm allowed to paint a picture  
I'm with you, surround you  
Whatever it all comes down to  
I don't wanna live life living without you
