

# Microphone

## Example

Take everything I say with a pinch of salt,  
Coming out with rubbish at intervals,  
Don't take what I say as an insult,  
Exactly what I did to the kids at school,  
I guess that probably means that I'm into you,  
So I've put it down in words just to speak the truth,  
And girl I know that's hardly original  
Hoping this should all make sense to you,

These words, you know they give me guidance  
And I just hate the silence, nothing worse than silence,  
So let me bring the sirens, we can fight the giants,  
We can battle tyrants all day, we'll stay all night and pray

Throw your stones  
We can hold our own  
Throw your stones  
We can hold our own  
I don't need no microphone

Saying what I thought was a piece of cake,  
On the evidence of things that I've seen today,  
I keep on saying things I don't mean to say  
On repeat on repeat on repeat today  
And I don't really care what the people say  
So you'll never see me looking for legal hate,  
Every now and then I just reach a stage  
I just sing it out and then lead the way,

These words, you know they give me guidance  
And I just hate the silence, nothing worse than silence,  
So let me bring the sirens, we can fight the giants,  
We can battle tyrants all day, we'll stay all night and pray

Throw your stones  
We can hold our own  
Throw your stones  
We can hold our own  
I don't need no microphone

I can make the whole world hear me  
I can make the whole world hear me sing  
(2x)

Throw your stones  
We can hold our own  
I don't need no microphone

Throw your stones  
We can hold our own  
Throw your stones  
We can hold our own

I can make the whole world hear me  
I can make the whole world hear me sing  
(2x)

Throw your stones  
We can hold our own  
I don't need no microphone
